About Common Seas

Common Seas is a not-for-profit enterprise on a mission to quickly and significantly reduce the amount of plastic produced and stop it polluting our rivers and seas. Our global team works across government, business and society to leverage change by driving new policy, investing in the circular economy and catalysing a cultural shift in how we make, use and dispose of plastic.

In Paros, we work with diverse stakeholders to implement actions and informative campaigns to support our community shift away from single-use plastics. We do this by identifying the main polluters on our beaches and marine environment, evaluating local opinions and needs, and examining the flow of waste around the island.

You will also produce all external copy according to agreed objectives and key messages, and curate content for the Clean Blue Paros website and blogs.

We have a lot to share with our local and global community and we're trusting that you will tell our story effectively!
